

SUPERIOR **BOILER**

SHAWNEE **DS-TYPE WATERTUBE BOILER**

- ✓ Patented design provides unmatched compact footprint
- ✓ Design pressure up to 1,200 psig
- ✓ Sizes from 10,000 - 300,000 lb/hr
- ✓ Capable of burning natural gas, fuel oil, digester gas, hydrogen, & various other gaseous fuels
- ✓ Square furnace with uniform heat flux promotes lower emissions
- ✓ Lower operational cost given smaller FD fan motor HP
- ✓ Gas outlet configuration: top, left, or right side
- ✓ Convective type superheaters up to 900°F
- ✓ Available as a Modular Boiler System
- ✓ Offered in the patented DFW design

	LENGTH (A)	WIDTH (B)	HEIGHT (C)
